

ASP Update – June 2006

News:

ASP Socials

We are taking a short break from ASP Socials this summer. We'll do some sort of breakfast hike in August, and a BBQ reception in September to welcome all the new postdocs. The ASP Retreat will probably happen in October.

I would like to get your feedback on the career development/socials that we had last year. Also, send me your ideas for future socials as well. I welcome any and all feedback. Remember, these are for you! Please send to paulad@ucar.edu. Thanks!

Rebecca Anderson wins Award

Please join ASP in congratulating Rebecca Anderson for receiving the Governor General's Gold Medal. These awards are the most prestigious awards that students in Canadian schools can achieve. Becky received the Gold Medal for her graduate work at York University on the use of isotopes to understand the sources and sinks of hydrocarbons in the atmosphere. Currently, Becky works with me in the POP group of ACD developing and deploying instrumentation for measurement of tropospheric peroxy radicals. She recently participated in the MIRAGE and INTEX-B field programs.

Great Job Rebecca!

Grad-Postdoc Association Social

This month's social will be at the West End Tavern on Friday June 9th. We'll meet up on the roof at 6 pm for food, beverages and relaxation at the end of the work week. Please RSVP Kristen Corbosiero (corbosie@ucar.edu), Tom (hopson@ucar.edu) or Mike (waite@ucar.edu) so we can get a head count and make a reservation. Thanks and I hope to see you on Friday!

ECSA Junior Faculty Forum

This year's Early Career Scientists Assembly Junior Faculty Forum will be held 1-3 August at Center Green. You must register in order to attend. For more information, please see the website at: <http://www.nsa.ucar.edu/jff>

Postdoc News

We are pleased to announce that Janet (Zhen) Zeng joined ASP on June 1st, and Simone Tilmes will be joining ASP on July 1st. Janet will be working with HAO, and Simone with ACD.
