

ASP Update – May 2006

News:

May Social: Careers in Scientific Management

Please join us for a panel discussion and social on May 30th at the Mesa Lab with Tim Killeen, NCAR Director, Guy Brasseur, ESSL Lab Director and former Director of the Max Planck Institute for Meteorology in Hamburg, and Jerry Mahlman, NCAR Scientist and former Director of the NOAA Geophysical Fluid Dynamics Laboratory. We will begin with the discussion at 3:00 in the Damon Room at the Mesa Lab and end with socializing afterward.

Grad student/Postdoc Social

Join other postdocs and grad students next Friday night, May 12th, at Foolish Craigs (1611 Pearl St) from 6:00 – 8:00 for socializing. Ideally, these casual socials will happen on the 2nd Friday of the month every month at a different location. Contact Tom Hopson for more information: hopson@ucar.edu.

Spring 2006 Girl Scouts at NCAR Event

Saturday May 13th is the semi-annual Girl Scouts at NCAR event from 9-4 at the Mesa Lab. This event is sponsored by ASP and coordinated by ASP fellows along with Teresa Eastburn of Education and Outreach. It brings together many NCAR female scientists along with 50 girl scouts to learn more about science and promote science education. At this time, there are enough volunteers for this event; however, if you are female and you are interested in this event, you may certainly drop in to see what it is about. For more information, please contact Kristen Corbosiero or Vani Cheruvu.

Postdoc News

We are pleased to announce that Gabriele Pfister has accepted a position with ACD as a Project Scientist. Congratulations Gabi!

Upcoming Events:

May 1	9 – 4 pm	ASP Advisory Committee Meeting	FL1 -2133
May 9	2:30 pm	GTP Seminar: Mike Waite, Advanced Study Program: " <i>Vortical and wave motion in rotating stratified turbulence.</i> "	FL2-1001
May 10	11:00 am	Research Reviews: Sophie Douet and Alma Hodzic	Live: FL3-2072 ML: Chapman Room CG1: 3150
May 12	6:00-8:00	Grad/Postdoc Association Social	Foolish Craigs 1611 Pearl St

May 13	9-4 pm	Girl Scout Event at NCAR	Mesa Lab
May 23	11:00 am	ASP Seminar: Bill Randel (Atmospheric Chemistry Division), " <i>An Updated Analysis of Stratospheric Temperature Trends</i> " Followed by lunch in the cafeteria.	FL2-1022
May 24	11:00 am	Research Reviews: Tom Hopson and Hugh Morrison	Live: FL-3: 2072 CG1 3150 ML: Directors Conf. Rm
May 30	3:00 pm	ASP Social: Careers in Management with Tim Killeen, Guy Brasseur, and Jerry Mahlman	ML Damon Room
May 31	11:00 am	ASP Seminar: Pieter Tans (Climate Monitoring and Diagnostics Laboratory, NOAA), " <i>Acceleration of the rate of growth of atmospheric carbon dioxide</i> " Followed by lunch in the cafeteria.	FL2-1022
